

Insurance

The Department of Education does not provide personal accident insurance nor does it provide cover for a student's lost/stolen or damaged private property.

Personal Property

If private property is lost/stolen or damaged, the school is not insured to replace these items nor can it buy private property replacement items from public monies. The responsibility for the replacement of private property lies with parents.

Insurance is available for personal items such as iPads, mobile phones etc. Most companies supplying iPads are able to identify insurance companies which cover these types of items.

Please be aware that some household insurance policies do not cover personal items so parents will need to be explicitly aware of what is and what is not covered by their existing policies.

Ambulance and Medical Cover

Parents of students in public schools are responsible for paying the cost of medical treatment for injured students. The cost of an ambulance must also be borne by families. Family or personal insurance policies are available from insurers and these can cover ambulance costs. Parents may wish to consider purchasing such a policy.
